16 February 2015

Dear Parents

The Marshall Road State School P & C Association recently established a tax deductible School Building Fund to receive all voluntary contributions. The ATO has endorsed the Fund as a deductible gift recipient in the name:

- The “Marshall Road Primary P&C Building Fund”.

The Fund was established for the initial purpose of raising funds to air condition the School’s twelve classrooms and teaching areas which are not presently air conditioned. The P & C has set this project as its priority, to implement a staged installation of air conditioning for these classrooms. The initial aim is to install air conditioning in a number of these classrooms during the school holidays prior to the commencement of Spring this year.

The P & C invites you to submit your tax deductible donation, for each of your children, to the Building Fund to help us to achieve this goal. Payment may be provided by Bank Transfer or by cheque to the following account:

Account name: Marshall Road State School Parents and Citizens Association Building Fund
BSB: 064-130
Account number: 1077 4056
Reference: Please ensure your child’s name is inserted in the reference for Bank Transfers.

After your payment is processed, a receipt will be provided for your children to bring home so that you may claim the donation as a tax deduction for the 2014-15 financial year. Please ensure you return the form at the bottom of this letter, which should be stapled to any cheque, or immediately returned to the School after you have made a Bank Transfer, so that the receipt is correctly made out for you as the donor for you. You will then be able to claim a tax deduction for your contribution when you lodge your taxation return after 30 June 2015.

The P & C needs to raise approximately $300, for each student, to complete the air conditioning of all of the classrooms and teaching areas at the School. We are asking all families to consider if they can provide more than the previous annual voluntary contribution to the P & C, of $50 per student. This is because of the benefit you will now receive from the new tax deduction status of contributions from 2015 since the new School Building Fund has deductible gift recipient status.

Your contribution will really help to expedite the new classroom air conditioning project. It will assist us to have as many additional classrooms as possible air conditioned before we return to the next hot period over Spring and Summer.

All of our children will appreciate the comfort provided when studying in an air conditioned classroom, and even more importantly, they will gain the associated learning benefits which occur through being able to focus on their studies during the hot periods as a result of the classroom air conditioning project at Marshall Road State School.

The P & C, and all the children, look forward to your support.

Yours sincerely

Scott Dullaway
President
Marshall Road State School P & C Association
